Use of the courseware

The user shall only use the courseware for the purpose of SITS training and for no other purpose.

The user shall not:

- Sell, hire, rent or distribute the courseware or copies of it other than to its course participants as part of the printed course material (i.e. if another party requires a copy of the original courseware, they should contact the original author).
- Post a copy of the original course materials on a web-site, forum or social media platform without express permission from the author.

The user may:

- Modify the courseware in order to customise it to the needs of the users particular use provided that the original source is acknowledged as stated above.
